Please talk to the staff upon ordering if you have any food allergies / For meat origin details, ask your waiter

Climate impact. We calculate the carbon footprint of our menus based on climate impact to enable sustainable choices and to do our bit to reduce the climate impact of food. In order to achieve the UN's climate goals for 2030, each person should have a carbon footprint of, on average, 0,5 CO₂e per meal or 11 CO₂e per week.
